*Jake Price and the Reality Relators*

By Robert A. Cerio

# DIMENSIONAL CONCEPTS

Dear Traveler,

Thank you for taking the time to visit our fine faire. We at Dimensional Concepts have endeavored to bring you all the wonders the multiverse has to offer in a safe worry-free environment. Unlike traveling through the technology offered at the Dimensional Concepts headquarters on Earth Prime, we have brought the dimensions to you here on Earth 6. By stepping through the portal gates at registration you have entered a space where you can experience the sights and delights from a select handful of the 479 alternate earth dimensions available through Dimensional Concepts user agreements.

Please take your time, explore, shop, eat, and be entertained.

We hope this experience will amuse and amaze young and old alike.

Happy Travels,

A handwritten signature in black ink that reads "Richard Harris". The signature is written in a cursive, flowing style with a large initial "R" and "H".

Richard Harris  
CEO Dimensional Concepts

# DIMENSIONAL CREDITS

Most vendors throughout the Faire will be accepting Dimensional Credits in lieu of cash, credit, or check payments.

Credits are available in 1, 5, & 10 dollar denominations and may be purchased directly from the Faire at Money Exchange.

Should you need to make a purchase over \$100 please acquire a payment voucher from Money Exchange.

Jake Price is missing!

He will be shifting around IWF between the dimensions!

If you spot him please take a selfie with him and post it to the event page with the hashtag **#wheresjake!**

If you find all 12 you will be entered in a drawing to win an autographed copy of the 3 book Dimensional Games series where you can read all about the adventures of Jake Price!

The author, The Rob Cerio, will be announcing the winner live via Facebook from his booth in the Steampunk Dimension at 5 PM. You do not have to be present to win!

# COSTUME CONTEST

Calling all cosplayers, costumers, kids, and animal like creatures. Put on your very best or worst and strut your stuff!

The contest will start at 1:30 PM. Assemble near the Vintage Dimension, look for Captain Adelaide in her fancy top hat!

## ***Our Amazing Judges:***

Luella and Brian Hansen *from Endelose Cosplay*

Rosa Lee Gray *from Bay City Bombshells*

Captain Adelaide Beauregarde *from The Airship Aberrant*

# EARTH 356 – STEAMPUNK

The denizens of Dimension 356 have remained firmly planted in the 19<sup>th</sup> century although their technology has taken a bit of a sidestep from what you know here in the modern world of Earth 6. This is a fine dimension for finding unusual gifts for fans of the Victorian and Edwardian eras. When visiting Earth 356 please be sure to mind your p's and q's while taking tea and observe the local custom of complimenting the inhabitants on their googles, hats, and other outlandish accessories.

*Dimension sponsored by:*

[www.AirshipAberrant.com](http://www.AirshipAberrant.com)

# EARTH 421 – MEDIEVAL / FANTASY

Those living in Dimension 421 live in a simpler time full of magic and fantasy. Knights in shining armor, dragons deep in the mountains; you are as likely to meet a simple farmer as you are a fairy princess. Not weighed down by the complications of technology, those in Earth 421 have honed their skills of art and craftsmanship. A hearty good morrow or good day m'lady may go far with those dwelling here. So, tip your hat and give a hazzah to our fine merchants, it may even help you score a bargain or two while perusing their wares.

*Dimension sponsored by:*

**TapewormProject Leather**

[www.TapewormProject.org](http://www.TapewormProject.org)

# EARTH 190 – SCIENCE FICTION

Earth 190 is a dimension where space travel has evolved beyond where you are here on Earth 6. The endless bounds of space have opened, and the inhabitants of Earth have branched out beyond mere humans. Here you will find all manner of strange and wonderful beings from all manner of strange and wonderful planets hailing from galaxies far, far away. They have brought with them fantastic new technologies making life easier for all. A word of warning; be careful who you greet and how, cultural standards can be complex in a world as diverse as Earth 190. You might think you are saying hello, but you very well might be insulting someone's grandmother.

# EARTH 265 – VINTAGE

Big band and swing, fluffy crinolines, saddle shoes, victory rolls, bee hives, and Aqua Net everywhere. Stuck somewhere between 1940 and 1960, this dimension is the Earth of simpler times. Here you can enjoy all your favorites from days gone by. The Saturday Evening Post is still published, folks still rely on the Farmer's Almanac for their planting and meteorological advice, Rock n' Roll is the latest craze for rebellious teenagers, and Sunday drives in the country are still a favorite past time. So, slide on up to the soda shop counter, grab a bag of penny candy, and be sure to have a wink and smile ready as the boys come marching home.

# EARTH 6 – MODERN

Right here, right now. This is the Earth you are all familiar with, the home you know and love, our own modern world. Your home dimension is full of its own marvels and interests. We have gathered a small smattering of local interests, artists, and a few merchants to delight you. Please enjoy learning more about the wonders around you that you may not have even known existed.

# EARTH 173 – SUPERNATURAL

Ghosts, goblins, werewolves, vampires, demons and everything else that goes bump in the night call Earth 173 their home. This is a dangerous dimension where nothing is ever what it seems, and no matter what it is it's probably trying to kill you. However, fear not dear traveler, there are those in this realm that can and will protect you. Just be on guard and keep your wits about you. Surprises lurk around every corner.

# EARTH 111 – POSTAPOCALYPTIC

On Earth 111 life is tough. Civilization has fallen and so too have the structures that maintain the luxuries and niceties of modern living. Food is scarce, power is unreliable or absent all together. Survival itself is a struggle, and for some it isn't just other humans you have to watch out for but also zombies and other nuclear horrors. Be wary when traveling here and be prepared to defend yourself at any moment. Bearing the dangers in mind, keep your eyes open for fabulous bargains as many marvels can be found here. After all necessity is the mother of invention, and scarcity makes for great creativity.

# EARTH 232 – ANIME

Inhabitants of Earth 232 are very different from you or me and their world operates under very different rules. Anime is short for animation, and as the name suggests, all things here are animated. The drama is high, and the hair is spikey. Everything in this dimension is a little over the top, just a little extra. The look and feel of the various geographical locations of Earth 232 are highly varied, and the standard rules of physics cannot be relied upon. The good news is you, the traveler, get to reap all the benefits of the magic and drama found throughout this dimension. The merchants here have a lot to offer, so take your time and keep your eyes peeled, that glowing sword may be more than just a shiny treasure.

# EARTH 227– AUTOMOBILES

This realm is primarily inhabited by a race of intelligent, talking cars. Travelers to Earth 227 will find it a fun vista of puns and paradoxes in a uniquely car-like culture. As there are no stairs anywhere on 227, those travelers that are wheelchair bound are in for a real treat. Dimensional Concepts offers full-scale car suits for humans wishing to blend in better with the natives. Unfortunately, the delegation is forbidden by interdimensional treaty from speaking to humans here on Earth 6, (also known as the “Herbie goes bananas” treaty of 2058) but they will be happy to sit and listen to any compliments you might like to pay them.

# EARTH 348 – GAMING

Those living on Earth 348 long ago decided that all major conflicts were best settled with a nice, complicated board game. To that end, their world is one where all major sports, wars, and other conflicts were fought with cards, dice and game pieces. Of particular note for visitors is the massive game library, which has many interesting games not found anywhere else in the multiverse operated by its benevolent librarian and his friendly minions. The librarian is very protective of his treasures, so, due to weather concerns he has shifted only games appropriate for the outdoors.

# PERFORMANCE SCHEDULE
